PERSONAL PROJECTS

Bankwise, UI/UX Designer

Technologies used: Figma, React Native

November 2022 – November 2022

- Won **Best Design** on the Design Track out of **192 teams** and **over 1,000 participants**
- Developed as a 24-hour hackathon project for HackUTD, the 3rd largest hackathon in the U.S.
- Designed **high-fidelity wireframes** and **mockups** for a financial portfolio app containing various bank accounts, cards, and actions associated with banking.
- Presented a **feasibility report** and app overview to 20+ industry professionals and UTD faculty/students

MyMuse, Front-End Developer

Technologies used: Flutter, Figma + Wireframing, Firebase, Apple iTunes API

September 2022 – November 2022

- Involved in an **app development program** with Association for Computing Machinery (admittance rate: 5%)
- Crafted **high-fidelity wireframes** for a music/social media app using popular conventions and implemented partial user flow
- Utilized **Flutter** to code the loading screen, navigation bar, add friends and request friends page, and user profile page

Women Mentoring Women in Engineering, Full-Stack Website Developer

Technologies used: React.js, Node.js, Figma + Wireframing, Firebase

June 2022 – Present

- Employed **Figma** to design **high-fidelity wireframes** for a redesign of the WMWE website, improving branding consistency across platforms
- Created pages using **React.js/Node.js** and added responsiveness to 'About Us' page and footer.
- Developed initial prototype of login, sign up, and forgot password pages for WMWE portal and tested compatibility with **Firebase**

EXTRACURRICULARS AND LEADERSHIP EXPERIENCE

UX Club, Designer

June 2022 – Present

- Designed various materials for publicity and organizational development including flyers, merchandise designs, and other event and advertising materials using Figma
- Presented UX concepts to event attendees and assisted in educating students on each stage of the design process

Association for Computing Machinery, Industry Coordinator

May 2022 – Present

- Promoted ACM to representatives from various companies, collaborated with company contacts and ACM leadership to host events, and facilitated further company involvement

Women Mentoring Women in Engineering, Marketing Committee Member

December 2021 – Present

- Created promotional flyers and merchandise to increase engagement across the organization and maintain and grow interest in the program
- Rebranded the website and social media feeds based on interaction statistics
